

The 5 Things to Learn in This Life

It all started with a passing question at the dinner table of an MIT frat house: Luis, what do you think are the 5 most important things to learn in life? Questions can take us surprising places, and little did I know, that Luis would answer this question so thoroughly. Over the course of the next two years, Luis contemplated the question, and answered it in a series of essays that have now been compiled into this book. What are the 5 most important things to learn? Its an important question. Not only will you gain insights from this book, but youll enjoy Luiss thoughtful prose and come away with a new perspective.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
