

## The Energy of Success

THE ENERGY OF SUCCESS will teach you how to tap into the energy inside of you and create your life exactly the way you want it. Usually when we use the word energy, we are referring to external power sources like electricity or oil, which enable us to turn on a light or drive our car. THE ENERGY OF SUCCESS is referring to an internal power source that most of us have never stopped to think about. It is the creative and magnetic energy that is stored in our thoughts and emotions. We use this form of energy every day and yet few of us understand the incredible power that we have access to. Modern science has already proven that human beings only use ten percent of their brainpower. So what happened to that other ninety percent? Wouldnt you like to have access to this energy and use it to your advantage? Well you can. Read this book and learn how.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
