1000 Spanish Words in Context: A Self-Study Guide for Spanish Language Learners I have put together a comprehensive list of the 1000 most used words in Spanish with Spanish and English sentences. Learning a language really takes time and effort. Don't be fooled. On going dedication really will get you through. You can use this list to build up your knowledge of Spanish words. It is a comprehensive list fully illustrated with examples of the words in English and Spanish to give you a good idea of how to use the word. How to use this book The list here is long. Is it too long? No. However you need to know how to use it properly to maximize your learning. I recommend setting yourself achievable targets to make sure you stay on track with your learning. You could aim to learn ten words (or less if you wish) a day. Five in the morning and five for the afternoon with the evening to check you remember them all. That may sound a lot to learn but consider all the times you have free when you could quickly learn a new verb. For example on the bus, waiting for the bus, on the toilet (when there are very few distractions!), during your lunch break, when you wake up in bed, when eating your breakfast, just before you shower (to practice in the shower), when you are waiting for someone the list goes on and so do your opportunities to learn. So don't be overwhelmed by learning a new language. Set yourself small daily goals and time will fly. Before you know it you will find yourself with an extensive vocabulary. Finally I want to say that I will hopefully add to the book so check for updates. If there's good demand and feedback I will offer more. Good luck! Alex Forero

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
