

## Key Figure or Endangered Species?

Essay from the year 2009 in the subject Communications - Journalism, Journalism Professions, grade: 1,7, The University of Sydney (Media and Communications), course: Editing and Manuscript Preparation, language: English, abstract: In this essay I am going to provide an overview of the changing role of the editor in book publishing from Beatrice Davis's day through to 2008, a phase marked by incisive and far-reaching alterations. At first I will expose the role of the editor and his challenges in the age of Beatrice Davis, who was a pioneer in her business as one of the first literary editors in Australia. Then I will point out important changes, the publishing industry went through, and in which amount these also had an impact on the role of the editor. Not only market changes and commercial pressures, but first and foremost the digital revolution plays a determining role in this development. Finally, I will outline the role of the editor today and glance at the future prospects of the editing business, according to Morrison (2005) who is concerned with the question: Has editing had its day?

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
