

## 23 WRITING PROMPTS THAT MAKE YOU WORK SMARTER: a radical approach to skill building for writers of all kinds

23 WRITING PROMPTS is a guidebook for working more intelligently as a writer. Over the course of a month, working through each of the 23 chapters, you'll make stunning improvements by learning to identify and challenge any blind spots in your storytelling, and to direct your thinking in new ways. Each chapter deconstructs a different writing fundamental such as character development and narrative structure, and then applies related disciplines--from cognitive bias and rhetoric, to logic and psychology--all in simple, easy to follow language. Why 23? The idea is that you can work through this book in one of two ways. The first is to simply read through, working on skills and following the prompts you find most valuable. The other (recommended) way is to commit to a radical month of daily challenges, taking time each weekday morning for a prompt, and then using weekends to revise and develop special exercises into new works. Either way, by the end of 23 WRITING PROMPTS you will have a supercharged perspective, and new momentum in your progression as a writer.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
