

BB-Midsummers Night Dream Mini (Spirit of Womankind)

Drawing upon the uncanny imagination of San Francisco artist Laurel Burch, we have created this book to honor the spirit of womankind. With vibrant colors and gold and silver foiling, the Midsummer Nights Dream mini cover is alluring to the touch and boasts an intriguing new flap design. The magnetic flap is cut into a triangular shape which partially hides the image on the front cover. With the flap closed, viewers are treated only to a seductive glimpse of the womans face. When the cover is opened the full image in all its power is revealed.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
