

Dont Manage...Coach!

Dont Manage...Coach! presents a simple and logical theory on how to better lead the workforce of today. Rather than treat the your greatest assets as a fixed (and fixable) resource, treat them as valued players on your organizational team. What better way to build a strong, successful team than to do what thousands of sports coaches do every day. The authors provide clear insights on how the reader can change attitudes and behaviors - allowing the team to flourish. Its all about the team. Its all about helping each and every member of that team become ridiculously successful. Its all about learning to coach rather than manage. You can be a better manager! And it doesnt take extraordinary effort. All it takes is a change in perspective a new way to look at your role.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
