

Recovering Ruth: A Biographers Tale

The task of editing and annotating a nineteenth-century diary seemed straightforward at first, but as Robert Root assembled scattered fragments of lost history and immersed himself in background research, he became enmeshed in unexpected ways. When doubts arose about who really wrote the journal, Root found himself plunged into a mystery of lost identity, drawn ever deeper into the drama and complexity of forgotten lives and engaged in a quest at times both compulsive and quixotic. Part memoir, part meditation on the nature of biography, *Recovering Ruth* is the absorbing story of recovering a hidden past and of learning firsthand the complications of intimacy that develop between a biographer and his subject.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
