

The Writing Process: A Concise Rhetoric

This practical and accessible writing guide unravels the complexities of writing by presenting the writing process as a series of critical thinking decisions. In addition to coverage of the traditional modes, the text offers practice in analyzing the unique rhetorical requirements of any writing situation by showing how audience and purpose influence writing. Student and professional readings throughout the text—including fiction, poetry, advertisements, memoirs and cartoons -illustrate various writing strategies.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
