

Elements of Argument: A Text and Reader

Elements of Argument was the first text based on the accessible Toulmin model the model of argument that fits best with the methods and goals of college composition. It combines a thorough argument text on critical thinking, reading, writing, and research with an extensive reader on both current and timeless controversial issues. Elements of Argument presents everything students need to analyze, research, and write arguments. The clearest writing and research coverage of any argument textbook has been re-invigorated to make it even more accessible. And it now has an array of provocative new topics all to help students stake their claim in argument.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
