The answer to this question will take readers through the pages of this campy and unusual book and into the photographer dogs ten favorite collectioneach one a fascinating jumble studded with dozens of hidden objects. Hilarious photographs of Alfred are inset in fancy gold frames on each spread, overlapping the intriguing collections: a tangle of keys, a batch of doggy treats, a box of shells. Subtle hand-tinted color gives the book its funky, retro look, and Alfred has the sad-eyed canine appeal irresistible to any fan of William Wegmans weimaraners. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
