

The Access Handbook

The Access Handbook is uniquely designed to help both adults and young adults with widely differing preparation to become confident and effective writers. Suitable as both a classroom teaching tool and a reference manual, this mid-sized spiralbound handbook is especially helpful for underprepared and underconfident less experienced writers, and ESL students of various abilities and diverse backgrounds. The Access Handbook offers positive instruction in key grammatical concepts supported by dozens of exercises and hands-on guidelines for dealing with common problems faced by less experienced writers. This handbook also validates writing by including more real examples of student writing than any handbook available. ESL instruction comes from an insiders perspective, from one bilingual author and another with TESOL certification. This exceptionally strong ESL strand focuses on learning English as a second language and as a second culture, and on becoming acculturated to new ways of thinking and writing. For writers who need some basic instruction.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
