

## Annual Report of the Secretary of the Connecticut Board of Agriculture, 1921 (Classic Reprint)

Excerpt from Annual Report of the Secretary of the Connecticut Board of Agriculture, 1921 The Connecticut State Board of Agriculture was established by act of Legislature, holden in New Haven on the first day of May, 1866. Said act provided that the Board should consist of the Governor, one person appointed from each county by the incorporated agricultural societies in each county receiving an annual bounty from the State, and four other persons appointed by the Governor, with the advice and consent of the Senate. This Board was empowered to receive and hold donations or bequests for promoting agricultural education and the general interests of husbandry; to prescribe forms for and regulate the returns required from agricultural societies. The Secretary was required by statute to visit different sections of the State annually, for the purpose of inquiring into the methods and wants of practical husbandry, ascertaining the adaptation of agricultural products to soil, climate, and markets, encouraging the establishment of agricultural libraries and reading rooms, and disseminating agricultural information by lectures or otherwise. For the purpose of preventing the spread of contagious diseases among domestic animals, the Board could prohibit the introduction of any such animals into the State, and could quarantine any infected animal in the State. The Board could also appoint three commissioners on diseases of domestic animals, having all of the powers of the Board in regard thereto. By act of the General Assembly of 1897, the Board was reorganized to consist of one member from each county of the State, elected by the Senators and Representatives of said counties respectively, and the power to investigate the contagious diseases of domestic animals was given to one commissioner, appointed by the Governor, with the advice and consent of the Senate. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
