

Ahns First Latin Latin Book (Classic Reprint)

Excerpt from Ahns First Latin Latin BookSpecial attention is invited to the following remarks explanatory of the system of instruction adopted in this Latin Course, and particularly in the present volume, the First Latin Book.Competent and very experienced authorities on the study of Latin have repeatedly adverted to the fact that the custom of tasking the beginner with a great mass of grammatical detail, introducing even scientific etymology and comparative philology into a mere school-book, must be considered a serious burden and harm to a young learner. Less of theoretical completeness and accuracy, and more of sound practical knowledge, and at the same time a greater familiarity with the classic authors, is the tendency of our time especially in America, and it is with due attention to these views and aims that the present Course has been prepared.The main object of the First Latin Book is twofold: first, to provide ample means for practice in Pronunciation, and secondly, to enable a beginner to fix the Declensions thoroughly in his memory, to learn their usage by translating simple sentences as soon as he commences the study of the language, and to accumulate gradually a store of useful words.Without entering into the discussion as to the best method of pronouncing Latin, it may be permitted to urge the great advantage and importance of knowing the phonetic system, either Roman or Continental. As this is an accomplishment which can only be taught orally and acquired by practice, the First Latin Book contains in its introductory pages a systematic collection of reading-lessons -exhibiting Latin words of every-day use, with their meanings, and illustrating at the same time Accent, Division into Syllables, and Quantity - which, in consequence of their practical arrangement, may be used with equal advantage for teaching either the Roman or the Continental

Pronunciation. Closely based upon this part of the book, and possessing its chief features, are the Reading-Charts, which will be found of great service in class-instruction, even to those perhaps who think it most advisable to leave Latin pronunciation as it is. Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
