

Aloha to You: A Journey to Living with Aloha and Finding the Power Within

Why Aloha to You? Aloha to You is meant to inspire and motivate you to find the power within to live the life you deserve. It is a self-discovering journey to find your true passion, what makes you happy, and how to go about living a meaningful and fulfilling life. Everyone has something unique to offer the world and that something is built off of the foundation of life - Aloha. Follow the author Daniel Aipas own journey to self-discovery through a compilation of essays that look to empower you to become stronger physically, mentally, and spiritually. Each chapter offers a lesson, rooted in Hawaiian values, to bring awareness of exactly what it is you want out of your life. This book is divided into three parts: Kuhao (Self-reliance), Mana (Power), and Aloha (Compassion). It can be read in order or in parts depending on where you are and what you need in your own self-discovery. Whats unique about this book? During his journey Aipa found what Aloha means to him, and he wants the same for you. With that in mind, he gives Aloha to You.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, viraal reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
