

An Etymology of Latin and Greek (Classic Reprint)

Excerpt from An Etymology of Latin and Greek

The following work had its origin in a felt want. Many students of the classical languages, all along the early part of their course, use text-books provided with vocabularies. These vocabularies, from the necessity of their limits, are brief and imperfect, and they enter but little into the subject of etymology. Even when afterwards the lexicon is used, the etymology is often studied only for separate words as they occur in reading; and the scattered and fragmentary information given in the lexicons produces a corresponding state of knowledge in the mind even of a diligent student. No connected, systematic, or thorough knowledge of etymology is thus acquired. In the grammar something may be done for historical etymology; but the requirements of other topics in a school grammar must always prevent this subject from receiving there the full treatment which its importance demands. There remain the larger works expressly devoted to the subject, nearly all of them in German, excellent when one gets to them and is prepared for them, but by their style and fulness, as well as size and cost, not adapted to the wants of an American school-room or of the ordinary student. They will be studied only by the few, and the benefit to be derived from them will generally come only when the student is far advanced in his course, and after years of study of other works.

Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
