

## Animal Crackers

Animal Crackers welcomes children to the world of English. This three-level course for pre-school learners is a child-centered approach to learning English. Features include: a complete English programme which mirrors the way children learn in their own language; young learner techniques - communicative, TPR, integrated skills; a calendarized thematic curriculum which is recycled from level to level; a music programme developed by Bob Schneider; an introduction to early literacy - chants, finger plays, conversations, short stories with predictable and repeatable themes; and an art and visual literacy strand. Every level contains: a colour students book; a black and white activity book; a listening cassette with Bob Schneider songs; and a comprehensive colour teachers book with reduced students book pages. A set of full colour flashcards, covering all levels, is also available.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
