

The Pocket Guide to Leadership: The 9 Essential Characteristics for Building High-Performing Organizations (HC)

An organizations success or failure depends on its leadership. A great leader can make a good company great, while a poor leader can take a thriving company and reduce it to a footnote in history, as was the case with Jeffrey Skilling and Enron. Some people believe that leaders are born with the essential qualities needed to inspire and guide; others see the birth of a leader as an evolutionary process, forged from experience and hardened through trial and error. Regardless of stance, most leaders agree that there is no magic formula, no silver bullet, and no one right way on the path to leadership. In this book, Brian A. Peters explores the traits he deems essential to strong and successful leaders: Purpose, Self-Sacrifice, Vision, Trust, Communication, Balance, Improvement, and Team-Building.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
