

# Awaken Your Power!: The Secret of Life Revealed - How Your Thoughts Create Your Reality

Awaken Your Power, is not your average book about the law of attraction. Most books on this subject just talk about the mental power that is available to us. This book actually goes into detail to tell you how it works and so much more!.Plus, the author, Joe Rapisarda, shares with you how he has used this power in his own life to overcome big challenges and achieve lofty goals..Here is some of what is covered in the book:.-An introduction to energy and how our minds are able to create and attract our reality.-The law of attraction and other supporting universal laws of nature.-Two different step-by-step processes that teach how to master the law of attraction.-How to troubleshoot the law of attraction when it isn't working for you.-When the law of attraction doesn't work. (Few, if any, books cover this subject.)-A 30 day self empowerment program where you learn the traits necessary to consciously influence your reality.-A reference guide on how to use the power of your mind in your everyday life situations.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
