

The Power of Pause: Becoming More by Doing Less

Terry Hershey, a popular author and retreat leader, understands that slowing down is difficult when you live in a fast-forward world. However, he also knows from personal experience that there is always a price to pay if we don't regularly take time simply to pause to cease activity, to treasure quiet time, and to discern the deep meaning of life's little moments. In *The Power of Pause*, Hershey uses powerful stories and meditations, inspiring quotes, and a specific call to action at the end of each chapter to help us understand the profound value of slowing down in our daily lives and taking time for the truly important things. Over the course of 52 brief chapters, we learn how to take back the life God always intended for us to have by letting go of the things that keep getting in our way.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
