

Leadership for an Age of Higher Consciousness I: Administration from a Metaphysical Perspective

Leadership in any capacity has taken on such awesome proportions that even the best leaders must find innovative and creative ways to deal with today's complex situations. Leadership for an Age of Higher Consciousness: Administration from a Metaphysical Perspective is a groundbreaking self-help manual written for those who seek to develop a more penetrating perspective and greater effectiveness in the leadership process. This book is relevant for heads of government, organizations and families, and for anyone seeking greater insight into self-leadership. An example in the truest sense of global principle-centered leadership, Swami Krishnapada (Bhakti Tirtha Swami) manages to take consciousness-raising to its highest platform of self-realized actuality in humanizing the workplace. My experience in working with all of the nations of the world convinces me that such a book is the corporate leadership guide for the coming millennium.-- The Honorable Pierre Adossama Director, Labor Relations (Retired) International Labor Organization United Nations

Welcome to the blog of Joan le Grande. I'm changing the blog to English so forgive me the Dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
