

## The 3 Cs: Chaos Crisis Confusion: Your invitation to a new life

Sometimes we can focus on what is falling apart and forget to look for what is coming together. Chaos, crisis and confusion in your life are not a sign that you are doing something wrong. You aren't being punished. You haven't made a terrible mistake. They are signs that a new life is calling you. Once you know how, you can step through chaos, crisis and confusion, into your destiny. It's easy to hear the voice of fear every day in newspapers, on the television, in our own heads. Often it is the loudest voice, telling us to be careful, that things are just going to go from bad to worse, and we'd better watch out. Yet a voice being loud is not the same thing as a voice being truthful. There is a more realistic and helpful voice within you and it isn't afraid. It speaks to you every day from deep within. Beneath chaos, crisis and confusion, it encourages you. It tells you there is a way through the struggle and it guides you there. This is the voice of your destiny. It wants to help you let go of what isn't working in your life, to step beyond your fear and doubt, and live a better life. The 3 Cs is your practical, user-friendly manual to help you learn to hear and trust the encouraging voice within, and successfully step through chaos, crisis and confusion, into the new life meant for you...

Welcome to the blog of Joan le Grande. I'm changing the blog to English so forgive me the Dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
