

## Brasseys International Intelligence Yearbook: 2003 Edition

Brasseys International Intelligence Yearbook includes profiles of the intelligence communities in more than fifty countries, with more than half of the total being completely original to this 2003 edition. Robert Henderson presents extended and updated country studies of the United States, Russia, India, Taiwan, and Pakistan, among others. Shorter country briefings outline the intelligence apparatus of such countries as Afghanistan, Syria, Vietnam, and Saudi Arabia. Each country's profile covers its foreign, domestic, military, and technical intelligence branches, and many entries include organizational charts that show the relationship between the national intelligence services and the executive branch of government. This respected reference book provides an indispensable resource for government officials, intelligence practitioners, scholars, research librarians, news agencies, and intelligence junkies.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
