

Business Chinese Conversation: Elementary, Book 2 (with 2 CDs) 2007 Ed.

Suitable for Chinese beginners or learners at the elementary level, the volume centers on the daily business life and provides rich and practical content. Altogether there are 50 lessons for the elementary level, with Book 1 having 26 lessons and Book 2 having 24 lessons. Two lessons as a session, it divides the daily business life into multiple layers, for each of which two texts are provided to help the learners understand and express their thoughts. It adopts the approach of combining classroom learning and practice outside class. After students finish learning of two texts in Inside Class and Outside Class, they will master the daily language of one layer of the business life. Attached at the back of the book is the English translation of the texts to help learners gain a better understanding and proficient use of Chinese language. About the Author: Huang Weizhi is a professor in University of International Business and Economics. His publications include: Essentials of Chinese Poems (3 volumes), the Business Chinese Conversation series (elementary, intermediate and advanced), the TV series Chinese for Business (26 volumes), Business Chinese (26 volumes) broadcast on CCTV, and International Business Chinese (50 volumes) supervised by Hanban and Ministry of Education. Series Introduction: This series has three levels: elementary, intermediate and advanced. For each level there are two volumes, altogether six volumes. It combines the teaching of language skills and professional skills. Starting from Elementary, it introduces the professional knowledge, which is not seen in other business Chinese textbooks; Intermediate covers the aspects of the business life of a foreigner during his stay in China, reflecting the new trend, topics and expressions in Chinese international trade; Advanced puts more emphasis on profession development, as well as the

conditions of contemporary China and business culture. Comprehensive and practical, the series can be used for classroom teaching or self-study. It is a must for students majoring in Chinese business, and an excellent Chinese companion for foreigners who wish to do business in China.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
