

# Mentioning the Gorilla: An Anthology of Creative Writing

A thought provoking collection of creative writing from the company of Dont Mention the Gorilla - A collaboration of authors and artists exploring all aspects of mental health & psychology through poetry, short stories, art, scripts and a bit of abstract thinking. Some work is entirely fictional, some written from personal experience and some (most) sit somewhere in that lovely grey area in between. Whatever form they take, they are all heartfelt, and hope to challenge social perceptions of mental health. This book reflects the human mind, which jumps from one thought to another and does not always follow a logical pathway, so, you can dip in and out as often as you like. Dont mention that sometimes I really love my mental ill health, It gives me a break from the rat race. Dont mention that I think the rat race is a made up, useless state of mind. Dont mention that secretly I think that if I was a rat I would win the race...

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
