

Narratives of the Self (English Literature and Culture in Context)

This book explores the many interdependencies and crossovers between living and writing, or, in more specific terms, between writers lives on the one hand and their literary output on the other. Thematically divided into four major parts, the book focuses on different literary concerns and discusses literary works from the 17th century to the present day. The first part approaches the issue of autobiography and biography, the second part takes a close look at travel writing, while the third discusses various lives in fiction and the fourth deals with confessional writing.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
