

Teaching Languages to Young Learners (Cambridge Language Teaching Library)

Recent years have seen rapid growth in the numbers of children being taught foreign languages at younger ages. While course books aimed at young learners are appearing on the market, there is scant theoretical reference in the teacher education literature. *Teaching Languages to Young Learners* is one of the few to develop readers understanding of what happens in classrooms where children are being taught a foreign language. It will offer teachers and trainers a coherent theoretical framework to structure thinking about childrens language learning. It gives practical advice on how to analyse and evaluate classroom activities, language use and language development. Examples from classrooms in Europe and Asia will help bring alive the realities of working with young learners of English.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
