

Alberta Travel Reference Map 1:1M ITM

2nd edition, scale 1:1,000,000 Alberta is many different things - a dynamic powerhouse of the Canadian economy, the source of oil in vast quantities, cow country, the Calgary Stampede, the Rockies. Alberta is a real gem in the crown of Canada, and is one of the most popular touristic destinations in North America. This double-sided map shows everything from Head-Smashed-In Buffalo Jump to the dinosaur pits of the badlands around Drumheller, to the foothills resorts close to the national parks of Banff and Jasper, and the gigantic parks themselves. The Province of Alberta is huge in area and exuberant as only a confident entity can be. This is Canada in its glory! A great place to visit, and a great map to explore it with. Map size: 27X39

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
