

Practical Grammar of the Sanskrit Language: Arranged With Reference to the Classical Languages of Europe, for the Use of English Students (Classic Reprint)

Excerpt from Practical Grammar of the Sanskrit Language: Arranged With Reference to the Classical Languages of Europe, for the Use of English Students. In 1846 I published a Grammar of the Sanskrit language, which I entitled An elementary Grammar, arranged according to a new Theory. This work is now out of print, and a new edition is required. The increasing experience which, during the subsequent ten years, I have derived from my duties as Sanskrit Professor at the East-India College, where every student without exception is compelled by statute to acquire this language, has led me to modify some of the views I expressed in my first Grammar respecting the Indian grammatical system. I have consequently felt myself called upon to re-write the book; and although I have seen no reason to depart materially from the arrangement originally adopted, yet I am confident that the present enlarged and more complete work will be found even better adapted than its predecessor to the practical wants of the European student. At the best, a grammar is regarded by an European as a necessary evil, only to be tolerated because unavoidable. Especially must it be so in the case of a language confessedly more copious, more elaborate and artificial, than any other language of the world, living or dead. The structure of such a language must of necessity be highly complex. To the native of Hindustan this complexity is a positive recommendation. He views in it an evidence and a pledge of the sacred and unapproachable character of the tongue which he venerates as divine. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
