

Gifts of the Heart: Stories that Celebrate Lives Defining Moments

We all experience moments when we are able to see our potential as human beings: situations in which compassion leads us to work for a greater good. Bettie Youngs demonstrates this ideal in 27 inspiring parables that show us its often how we choose to handle a situation--not the situation itself--that infuses our lives with new meaning. These real life lessons--often passed on in subtle ways during defining moments--are genuine, potent and precious. Youngs inspiring stories will remind you that the tools for positive change in your home, workplace and neighborhood--and even on a global level--exist within your heart. Through her loving example, she shows you the path to greater tolerance, acceptance, kindness, forgiveness and grace.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
