

A History of the Massachusetts General Hospital (Classic Reprint)

Excerpt from A History of the Massachusetts General Hospital
The Massachusetts General Hospital - with its two departments, the Hospital for the sick in Allen Street and the Asylum for the Insane in Somerville - is one of the largest and most important of the charitable institutions of this Commonwealth. Superintended by officers faithful to their trust, it has ever, in a high degree, enjoyed the confidence of the community, and been the object of public and private munificence. A brief history of this Institution, - of its small beginnings, its early difficulties, and its ultimate success, - an account of what has been done for it, and of what it has itself done in return, - will perhaps, to its friends and benefactors at least, prove not wholly devoid of interest. I have been personally connected with it, in the offices of Secretary and Trustee, for twenty-five years; and my father-in-law, Ebenezer Francis, Esq., was one of its earliest and most active Managers. Our joint recollection extends back through the whole period of its existence. The materials for such a history were thus, to a considerable extent, either already possessed by me or placed easily within my reach. Their selection and arrangement have been a labor of love. The frontispiece is an engraving on steel, representing a section of the panorama of Boston and its vicinity, taken by means of a daguerreotype from the top of the State House. About the Publisher

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
