

Hit the Headlines: Exciting journalism activities for improving writing and thinking skills

Hit the Headlines charts out a series of fun and inspiring, cross-curricular journalism workshops that enhance key skills and confidence in areas such as: Writing and editing. Critical assessment. Interviewing and observation. Mental flexibility and resourcefulness. Role-playing and teamwork. This book will enable teachers of 9-15 year-olds to involve their students in a number of effective and well-tested exercises, games and scenarios, which will encourage them into enthusiastically seeking out and gaining further knowledge in areas such as news, journalism, social issues, IT, data assessment, intelligent observation, and enhanced questioning and listening. This is organic learning at its best! An introduction to the theory behind the book summarises short and long term learning outcomes which your students can achieve through these methods, explaining why scenarios which feel real can immerse students and inspire them to achieve greater proficiency. The author also flags up particular aspects of the book which encourage readers to read and use it systematically, as well as to take on specific challenges themselves in order to better assist their students in the writing and editing challenges it contains. Practical photocopiable templates for many chapters are provided, which can be used as classroom (and out-of classroom) exercises, examples and solutions to exercises. Through these engrossing journalistic scenarios, students will learn how to critically assess levels of interest and importance of diverse facts, and so begin to understand that report or presentation writing of any sort involves sequencing a critical balance between these two factors. Readers and users of this book can go on to customise their own scenarios, drawing on the stimulating techniques outlined to improve their students' factual writing and related thinking skills. In particular, classroom teachers in primary,

middle and secondary schools and all literacy co-ordinators will find this book extremely useful, as well as students studying for PGCEs and NQTs.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
