

Collaborative Leadership: Lessons from the Street to the Boardroom

In this engaging new business book, Collaborative Leadership, George O'Meara reveals how he went from carrying a bag (sales) to the top ranks of executive management. With entertaining anecdotes and plenty of secret sauce, O'Meara describes his personal transformation from a Chicago kid with street smarts into the leader of a high-functioning organization and challenges you to do the same. O'Meara shows you how to create a self-governing team through collaborative leadership. You'll learn what it took, in the real world (none of this is theoretical) to create an organization capable of running a \$6-billion-a-year services business. The process starts with your own personal growth and, enabled through the right strategies and management tools, spreads out and permeates the whole organization. No matter what the size of your business, this book is crammed full of important lessons-learned that will make you a better leader. Truly effective leaders are a rare breed. Collaborative Leadership shows you what it takes to fill the leadership gap so that you, your people, and your business can reach their full potential.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
