

## Aspects of Success: A Playbook to Get More Out of Life

Aspects of Success is designed to help you live a more rewarding and gratifying life. Based on scientific research, leadership philosophy, and spiritual wisdom, in combination with four decades of personal exploration, this comprehensive playbook is the perfect guide to achieve a well-lived life, one full of success and accomplishment. As Jesus said, My purpose is to give (you) a rich and satisfying life, one where your joy will overflow. Yet many people do not know how to fully capture this promise. To achieve success, you are required to do four things: to think well, make plans, take action, and embrace life. These aspects can be thought of as your King, Wizard, Warrior, and Monk, representing your mind, spirit, heart, and soul, respectively. Aspects of Success offers concrete methods and practical tools that leverage your own intuition and intelligence. Presented in a playbook format, you will draw on wisdom gained from a wide range of exercises specifically designed to help you craft a personal, customized plan to live more successfully. The end result is peace, satisfaction, and happiness as you create your ideal life. The outcome of a tithing exercise, Aspects of Success, is the culmination of a multi-year effort to give something back. Its purpose is use scientific, time-tested, and spiritually supported behaviors to show people how they can get more out of life and, in so doing, make the world a better place. Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality.

Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
