

Creating Fabulous Facebook Pages (A Modern Indie Authors Guide)

Jeff Moriarty's passion for spreading ideas combines nicely with his approachable writing style in this guide for the modern indie author. As an indie author, can you afford NOT to be on Facebook? Only if you can afford to be invisible to one billion people for whom Facebook is an integral part of their lives. Facebook is an author's biggest opportunity to build a connection with individual readers and to create a devoted fan base hungry for new content. I'll show you how to navigate the confusing avalanche of options as you create a professional Facebook author page -- yet keep your personal information private. You will learn how to create specific content to evolve your fans from a bunch of lone readers into a group of valuable allies eager to help forward your career as an author. This author-focused book teaches you how to engage on Facebook the right way. It's filled with specific steps to correctly set up your page, examples of authors who are doing it well, and loads of strategies, tactics and ideas that will let you make compelling content a breeze. And it's presented in a short, sweet, easy-to-follow format that covers only the things you need so you can get started quickly, then get back to writing--and selling--more books!

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
