

Culture and Explosion (Semiotics, Communication and Cognition)

Culture and Explosion is the English translation of the final book written by legendary semiotician Juri Lotman. The volume demonstrates, with copious examples, how culture influences the way that humans experience reality. Lotmans renowned erudition is showcased in a host of well-chosen illustrations from history, literature, art and right across the humanities. Now appearing in English for the very first time, the volume is made accessible to students and researchers in semiotics, cultural/literary studies and Russian studies worldwide, as well as anyone with an interest in understanding contemporary intellectual life.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
