

Chinese Made Easy Textbook 2 (3rd Ed.) - Traditional (English and Chinese Edition)

One of the best Chinese language textbooks for young students, Chinese Made Easy adopts a new approach to teaching Chinese as a second language. It is designed for young students taking SAT II Chinese Test (US), GCSE/IGSE Mandarin Chinese Exams (UK), and Australian Mandarin exams, or for those students who are starting to learn Chinese on their own. It features task-based learning coupled with a focus on form and function. There are a wide variety of text presentations, practice materials, and up-to-date topics relevant to young students (ages 10 and up). Attention is paid to careful pacing for gradual progress in language skills, with clearly focused aims for each unit, regular consolidation, and consistent reinforcement. The language materials are presented in fun and interesting ways, with highly attractive and colorfully designed pages.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
