

Harry B and Timmy Ts Beary Magical Christmas

Christmas is a special time of the year. A time when families come together, friendships are rekindled, and even strangers treat one another with kindness. But, on two separate occasions, for two lonely, stuffed bears that remain unpurchased on a grocery store shelf, the holiday is proving to be a lonely and empty time. A charming new childrens book, *Harry B and Timmy Ts Beary Magical Christmas*, shares several wonderful lessons that revolve around a pair of forgotten stuffed animals. It becomes a magical Christmas for the bears when a supermarket store clerk, whose mission in life is rescuing unwanted cats, sees their need and rescues them. The story teaches us the value of adoption, caring for animals, and how one persons generosity can make a difference. Author Karen A. Lynch has taken care of the unwanted for over a quarter century, having founded a charity, Florida Cause for Paws, 25 years ago to save unwanted cats. This is her second animal and holiday-themed childrens book. Her last one was a cat-centric story called *Irish Holiday Fairy Tales* by Finn McCool, the Magic Leprechaun Cat. Readers are in for a big treat! The opening lines of Lynchs wonderful story set the tone for readers: Magic happens. Sometimes it happens in the most unusual places. We just have to look to see it. We just have to believe it exists. Life is full of the unexpected. It is what makes life interesting, surprising, fun.

Lynch writes about two teddy bears - Timmy T and Harry B - who even at 50% off could not find any takers, not even during the gift-giving, holiday season. She writes of Timmy T as follows. Whoever made this particular bear did not stuff him properly. So, unlike the other bears, who when placed on the shelf, or wherever they were displayed, sat up nice and straight and looked bright and happy, and appealing, this bear slumped and sagged and never did

look happy with the whole arrangement. No matter how any of us tried to make him sit up, so people would notice him and want to buy him, he just lay there limp with a sad expression on his face. Imagine no child to hug the bears lovingly, or adult looking pleased at the checkout counter at the prospect of one of the bears delighting a family member. Do stuffed bears have feelings, or even care if anyone buys them? Lynch's story raises these questions, helping readers develop empathy for all creatures. Her book also offers educators and parents an opportunity to engage children with a list of discussion questions at the end of the story. Lynch illustrates through her story how the magic to create happy endings lies within each of us. All we have to do is to recognize the need, step forward, be kind and offer help in caring for another. For there is magic in doing a good deed and the doer of that good deed is the one who benefits most, she writes. There is no better feeling than knowing you have done something to make another's life better, even if that someone is only a stuffed bear.

I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
