

The Authors Blueprint: Successfully Write a Non-Fiction Book, Conquer Procrastination and Never Get Writers Block Again

This manual covers the basic steps of writing, from choosing a topic to creating a working title and a table of contents, writing without editing, rewriting and more. In addition the blueprint talks about the psychology of writing and outlines the entrepreneurial self-publishing model. The authors blueprint is based on the know-how of a man who has authored more than twenty books since 2001 and taught hundreds of aspiring authors how to write their non-fiction books with excellent results. The process works for memoirs, how-to books, technical handbooks, personal philosophy books, and all other works of non-fiction. Whether your goal is to increase your business, establish yourself as an expert, share your story or leave a legacy, this manual will help you accomplish what you have set out to do.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
