

## Dynamic Ageless You

Are you frightened of aging? The belief in growing old & aging is one of the biggest limiting factors in our lives. There is an alternative. Change your beliefs & you change your biology. Give yourself a FAITH-LIFT. Combining ancient wisdom & modern science, we now have the understanding, the information & the tools to live longer, fully functioning lives. Science today is what miracles were to our ancestors. A shift in our beliefs can extend our life span & revolutionise our ideas about aging. We live in a field of energy: the stuff of which our reality is comprised. Just as an observer in an experiment will influence the experiment, we influence the field around us. science has discovered that human DNA affects the field in ways that seem to defy logic. Just as DNA affects the field, our thoughts affect DNA. So, our beliefs affect our DNA and our DNA affects the field. Our beliefs hold the key to our power to change our biology.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
