

## Ios Terrain Maps: TER.315

It is the first GIS map of the island, meaning that this is the first time Ios is mapped with a topographic precision in proportion to the map scale. It is waterproof and rip-proof. You can fold and unfold it a thousand times, fold it in irregular ways, dunk it in the sea or leave it out in the rain. This map is indestructible! It is remarkably detailed, at a scale nearly twice as large as the competitions, which makes everything crystal clear! It is the first time the islands entire coastline is mapped. Cartography was done with TERRAINs specially equipped and staffed cartographic vessel. This means that you can locate all beaches of the island, down to the tiniest cove! In fact, the special features of every single beach are recorded: whether it is sandy or pebbled, whether it features natural tree shade, water, a beach bar or organized water sports, whether the seabed in front of the beach is sandy or rocky (so that you will know where to anchor). It features the most complete road network. The dirt road going down to Fontadiko beach and the dirt roads west of the port leading to the small beaches of Diakofto, are just a few of the roads appearing on a map of Ios for the first time. It features the trails of Ios for the first time with total precision, since TERRAINs cartographers walked them one-by-one. The length of all trails is measured in kilometers so you can estimate the duration of your hike, and 7 of the trails are described in full detail on the back of the map. Moreover, it includes biking routes on Ios through the prettiest remote dirt roads on the islands west coast, for mountain bike fans.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped

and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
