

## Spanish Pronunciation (Collins Easy Learning Spanish) (Spanish and English Edition)

A step-by-step guide to Spanish pronunciation that will help you to build your confidence and communicate better in Spanish. If your Spanish accent is letting you down, Easy Learning Spanish Pronunciation is perfect for you. You'll see and hear how to soften the influence of your mother tongue and speak clear Spanish everyone will understand. Aimed at beginners and at intermediate students who want to undo bad habits, Easy Learning Spanish Pronunciation focuses on spoken Spanish, and will help you to improve your pronunciation, confidence and fluency. The booklet and audio CD will guide you through how to pronounce each sound and gives real-life examples of where these sounds are used. It will help you recognize why your native language makes you mispronounce certain sounds and which sounds you therefore need to focus on. There are also plenty of opportunities for you to practice the Spanish sounds while listening to the native Spanish speaker on the audio CD. One of the sections focuses on pronouncing items from a typical Spanish menu, so you can be sure you will always be understood. The booklet also contains illustrations of the mouth showing how to make Spanish sounds and memorable cartoons to help you remember pronunciation rules. In addition to teaching you how to pronounce Spanish words accurately, Easy Learning Spanish Pronunciation also covers the differences between the Spanish and English alphabet, stress and rhythm, the differences between accents within Spain and provides information on the differences between the Spanish spoken in Spain and Latin America. Easy Learning Spanish Pronunciation is a fun and enjoyable way of putting the finishing touches on your Spanish accent!

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy

stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
