

Issues in the Left Periphery: A Typological Approach to Topic and Focus Constructions (Europäische Hochschulschriften / European University Studies / Publications Universitaires Européennes)

The study aims at examining current linguistic theories on information structure such as Rizzi's cartographic approach and modifications thereof in the light of empirical data. The author provides a preliminary overview on topic and focus constructions in a number of mostly European languages and then concentrates on two languages from West Africa, Akan and Ewe, in which focussed and topicalized constituents are overtly marked. On the basis of the data from these African languages the author modifies the preliminary topic and focus typology, discusses cases which cannot be accounted for by the theoretical assumptions put forward in the cartographic approach and challenges the interchangeability of the concepts of concord and agreement.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
