

Elements of Newspaper Design

Covering every aspect of newspaper design from typography to photography, from redesign to the specifics of a design stylebook, this volume is an essential text for use in graphic journalism courses and an effective reference source for editors and publishers. The author coins the phrase Total Page Concept (TPC). By use of this term, he demonstrates the importance of placing graphic elements on a page so that they complement one another. On the TPC page, all elements mesh. Typography, photography and illustrative art are as important to each page as are thorough writing and careful editing. This scholarly text includes more than 200 examples from newspapers throughout the United States, 60 interviews and citations plus statistical tables that show how editors use various graphic elements in their publications. Divided into six sections, Elements of Newspaper Design shows how graphics and text must complement one another on a TPC page. Sections are: Basics of the Total Page Concept; Principles of Design; Building Blocks of Typography; Design Creativity; Finishing Touches; Putting It All Together.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
