

Evolve or Die Single A No BS Guide to Dating

As a single woman in this crazy and competitive dating world, I quickly realized that neither women nor men seemed to have a clue what to do on dates or with themselves before venturing out of the house. My real frustration and desire to help came from on-line dating sites where, instead of putting their best foot forward, singles seem to be lost in mediocrity. I can help you maneuver this endless landscape and become better than you thought possible. This dating & relationship manual is designed for men and women who have forgotten how to date or just never learned in the first place. Dating in 2012 is fast-paced and very competitive. The title speaks for itself; if you don't Evolve, you will Die a fast death in the dating world. Let me take you on a quick journey and help you get off the couch and front-and-center in the dating world. And for those of you already in a relationship...step into the fast lane and get that relationship sizzling again. Evolve or Die Single is for single men and women of any age looking for some guidance in the dating and relationship world. The advice given is direct and humorous, and includes some of my very own dating stories.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! Categories Comics Games Playstation 4 Wii U Lifestyle Posted by Joan le Grande in Games, Playstation 4 Leave a comment Tagsexperience, first look, Games, Playstation 4, Playstation VR review, ps4 VR review, virtual reality YES YES YES. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
