

## Experiencing Chinese for Middle School Textbook3B (English and Chinese Edition)

This series is compiled for junior high school students who are beginners in Chinese learning, including students in public and private high schools, or independent Chinese learners aged between 13 and 24. The textbooks could also be used for Chinese teacher at relevant levels. The textbooks are divided in to six volumes, each of which includes a Student Book, a workbook. Five C-principles are followed in the compilation of these textbooks, which mirror students real life experiences and grab their interest, for the promotion of active teaching and learning methods and creation of a joyful learning atmosphere.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
