

## Fifteen French Plays (Classic Reprint)

Excerpt from Fifteen French Plays This little volume was prepared as an aid to the mastery of spoken French. These Fifteen French Plays contain a lively exchange of Short questions and quick answers, resembling more than anything else everyday conversations. For oral work they have a decided advantage over novels with their stilted style and long tedious descriptions. Another advantage in the reading of these plays is that they familiarize the pupils with the various persons, Singular and plural, and the various tenses, whereas novels are generally written in the third person and in the narrative tense. Most French plays are unpopular with American students because they are too long. There is usually too much talk and too little action, and the reader soon becomes wearied. This defect is not noticeable when the play is well acted, but is painfully evident to the reader. The plays of this collection are all so Short, and the subjects so varied that it is hoped that every page will be found interesting, and that, with their simple scenery, they may be easily performed in classes and clubs. I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
