

## Lean Lexicon: A Graphical Glossary for Lean Thinkers

With help from the Lean Community, we made the new Third Edition of the Lean Lexicon even more valuable and useful. Starting with improvement ideas from Community members like you, we researched and added 21 definitions to the latest edition of this popular and indispensable reference book. The expanded Third Edition, featuring 58 illustrations, defines 187 key lean terms from A3 Report to Yokoten. The new definitions include Lean Consumption and Lean Provision, the groundbreaking ideas on using lean principles to build a new producer-consumer model described in Lean Solutions by James Womack and Daniel Jones. True to the Lexicons description as a graphical glossary, we included consumption and provision maps. Heres the complete list of new terms: \* Genchi Genbutsu \* Hansei \* Jishuken \* Lean Consumption Maps \* Lean Provision \* Quality Function Deployment \* Shojinka \* Six Sigma \* Theory of Constraints \* Total Quality Management \* Yokoten \* Group Leaders \* Isolated Islands \* Lean Consumption \* Lean Provision Maps \* Preventive Maintenance \* Resident Engineer \* Quality Control Circle \* Team Leader \* Total Quality Control \* Work Element The new edition retains past improvement ideas from readers, such as the simple, one-page guide to pronouncing Japanese terms. Unlike most other business glossaries in print or online, the Lexicon is focused exclusively on lean thinking. It also makes abundant use of illustrations and examples, and was compiled with input from managers and engineers who are implementing lean.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There

were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
