

French in 32 Lessons (Gimmick Series)

The rapid and practical way to master the basics and begin speaking the language. The book gives you the essential, simplified grammar plus 3000 of the most-used words and idiomatic phrases that people use in real-life situations. The book can be used as a self-learner by beginners and also by those who want to brush up. Adrienne's key to teaching a language is to eliminate the boring repetition of inane exercises. She emphasizes vocabulary, and lots of it (grammar will then come naturally); frequent tests (indispensable if you want to learn the language in less than ten years); and writing right away, maybe describing your house or job. Jump in! The Gimmick Books are based on the authors many years of successfully teaching languages to tourists, business people, diplomats, and other international travelers.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
