Friends with English: Bk. 2

Friends with English is a language course designed to be used with children, from the age of seven upwards, who are complete beginners. It builds up to reading and writing gradually - only single words are introduced at first, and are systematically built into complete sentences. There is constant recycling of language items, as young children need repetition to build their confidence. Letter formation is practiced first, then tracing over words, before pupils are expected to write freehand. This emphasis on alphabet work makes Friends with English especially useful for children who are not familiar with the Roman alphabet. The lessons are full of colour, with an exciting circus theme that children should find enjoyable. Time is given for listening and speaking practice, with games and activities based on oral communication. By the end of Level 2, children should be able to say, understand, read and write simple English words and phrases, such as colours, numbers and animals. Also available as part of this language course are teachers books, and cassettes, which contain listening tasks, chants and songs.

Welcome to the blog of Joan le Grande. I'm changing the blog to english so forgive me the dutch articles before. I already translated a few, keeping it up! Anyway, stay tuned for lifestyle articles and reviews about games or other nerdy stuff. Enjoy! I'm super hyped about the VR, but you obviously knew that already because of my last blogpost. There were a few hiccups because I ordered it online and I was working during the time it came. I stressed, freaked, jumped and finally gave up on the thought I got to play on the day it came out. But luck was on my side and when I got home, 20 minutes later the VR glasses arrived! In this post I will take you with me on my first experience with virtual reality. Was it as awesome as I hoped? Or is nauseating and not really my cup of tea? Read and find out!
